Paving a cleaner, greener future

Less trees. Less water. Less energy. Less waste. More responsible. And it's all because of our innovative DRC technology binding together our GreenX Series wipers. We are one of two manufacturers who produce DRC wipers: a cellulose based, cloth-like solution that provides a more durable wiper using up to 60% recycled fibers. No rips or tears about it. Using these wipers allow you to earn credits in several LEED-EB (Existing Building) Operations & Management categories without sacrificing a spectacular clean. **Choose GreenX Series Wipers and choose the latest in Green Innovation.**
